Hi Mark – I was on my way to Parkersburg but got diverted back to the office to help coordinate a response back for you. At this time, my START contractor is working on compiling some of the data. I should have something to my management soon.

**Subject:** Re: Parkersburg, wv news coverage below.

I just received a call (8:40am) this morning (Monday) from **Sen. Shelley Capito** and her state director, **Mary Elisabeth Eckerson**.

They are in route to another site, but are very concerned about air quality issues around that conflagration and would like a situational update on what EPA involvement has been so far and what resources we might be able to bring to bear to assist in air monitoring, etc. Also she is asking if FEMA may have any role in this at the stage. The Senator says local elected officials in Wood County (county commissioners) are very concerned that the fire is still ongoing.
